

City Road Play Map

Writing Activity

Talk with your communicator about some of the activities they did in the city today. Help your communicator find nouns, verbs, and adjectives on their AAC device to fill in the blanks on the below ad-lib. If your communicator needs support finding words in their AAC device, help them locate the vocabulary page(s) containing the noun, verb, or adjective, and let them choose words from those pages. Once your communicator has chosen the words on their device, you can complete the Mad Lib by helping them write in their responses!

.....
