Model It on the AAC System

Modeling on your child's AAC system is just "talking" using his/her language! When you say a word with your voice, also say it using your child's voice. Take time to learn about the organization of your child's language. Use Word Finder, a helpful tool, to remember where to find words.

Tips to Engage, Expand, and Succeed:

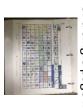

- Keep it engaging and change it up by implementing repetition with variety!
 - Each time your communicator plays with the light-up wand, change the wand color and speed.
 - Model a vareity of core words and communication functions while playing with the light-up wand. Change it up each play session!
- Minimize additional stimuli to keep the communicator's focus on the light-up wand
- Play glow tag outdoors at night or in a dark house using the light-up wand with peers!
 - Model phrases, such as: "You're it!"; "Got you!": "Found you!"
 - Incorporate your communicator's siblings and/or peers to facilitate social communication.
