

Words in **bold** represent the primary verb, adjective, and noun for each symbol.

Home (Core) Screen

About Unity

- Unity is a Minspeak system, organized in **word families**.
- The symbols on the home screen can mean more than one thing (**multiple meaning symbols**).
- Words in each word family are “related” to each other.
- Organizing words this way in an AAC system promotes semantic mapping and webbing – which is considered good practice when focusing on vocabulary teaching.

Second screen, after selecting APPLE (EAT).

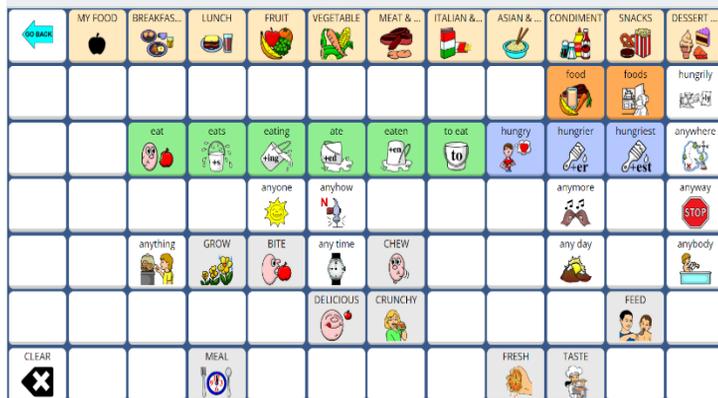

Chart Key:

**Symbol** – the image on the button

**Symbol name** – how you would search for it; often different from the label on the button

**Verb** – action word(s) associated with core symbol. Color code = green button

**Adjective** – describing words(s) associated with core symbol. Color = blue button

**Noun** – category noun(s) associated with core symbol. Color = orange button

**IDCPQA** – grammatical category symbols on home screen. Not all are available on the home screen at lower grid levels.

I = Interjections (fireworks)      D = Determiners (wizard)

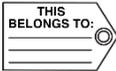

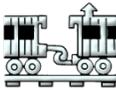

C = Conjunctions (train cars)      P = Prepositions (bridge)

Q = Questions (question mark)      A = Adverb (airplane w -ly)

**Category** – Types of Words in Word Family

**Symbol Rationale** – Example sentence connecting words in the word family for each symbol

Words in **bold** represent the primary verb, adjective, and noun for each symbol.
